Since October 2009 I was put on Singulair (this month I had to stop Singulair because that actually caused problems with heartburn/reflux/constipation) in addition to using Symbacort and my regular albuterol inhaler.

As a psychologist, I am concerned that the article often seems to lump together the clearly over-the-top extreme examples with reasonable trigger warnings about content related to genuine PTSD, such as rape, incest, violence against women, etc.
